I think he means and undefeated or 1 loss season and inparticular an undefeated MWC season.

As I think back to the All-Conference selections, you can clearly see why the MWC doesn't want this to be the BYU-only conference. I mean, there are quite a few teams who look impressive over the last three years. TCU 3 GB, Utah 14-10, AF .500, New Mexico 13-11. SDSU 10-14. Wow. How can I describe the league? Parity? Not quite the word I'm looking for. How about domination?

I don't think they look full grown to me...at least the U-tards don't.

I think even with 1 loss, we can still make the BCS next year, only if that one loss doesn't happen at the end of the year.

If you look at the Mountain West's 2008 non-conference schedules, it could be a great year to break out. On the other hand, we could be looking at some serious disrespect if the MWC doesn't perform well.
