
GA House passes NCAA Football Playoff Resolution

Posted by Mars - 2008/02/02 01:36

The Georgia House voted 151-9 Friday in favor of a resolution urging the NCAA to create a playoff system for college football. "The only major sporting event without a playoff system to identify its true champion that I know of is NCAA Division 1 football," said state Rep. Quincy Murphy, D-Augusta.

Good, it's about time the government gets involved since the school presidents and BCS officials have shown no interest in changing this most unfair system. Maybe a little pressure from a few other states will finally get the ball rolling for a long overdue change.

Didn't Orrin Hatch Officially Urge the satellites and Comcast to come to a compromise about the mtn???

This is essentially meaningless...

I think Ron Paul would probably say that we need to spend less money on sending 2 NFL teams to England to play in a football game that could be played in the US, which would save Zillions of dollars and could pay for my ticket to the Super Bowl! :laugh:
