
Well played everyone on the bracket challenge

Posted by WACoug - 2008/04/07 22:12

Thanks to whomever organized the group and to all those who participated. Thanks especially to Mario Chalmers for hitting that three and helping me finish tied for 7th in our group with a 90th percentile national ranking. :laugh:

It was a good bracket year for me...especially because I only submitted one. I normally do more. Congrats to those that topped the Cougarblue challenge on ESPN. Aaron, I think you placed 2nd and I don't know who was the 1st place person. What is your name on this board? Anyways congrats!

Thanks! And grats on third! I would have taken a lower finish had Memphis won, I was really hoping they would get it this year after all the talk against them. But, I guess in the end, free throws is what cost them anyways.

Grats to Franchuk and his Jayhawks. That's the only team he loves more than picking UNLV in the COugarblue MT West picks. :P

I also enjoyed following Cougarblue's March Madness. I would have been right up near the top had Memphis won, but sadly I finished a bit lower, but it was a lot of fun anyway.

Yes, thank you Kansas that was an amazing come back to win it all for them and for me.
