Back in the day, I used to look forward to playing teams who touted guys like Watkins. Of course it is a challenge to cover him and it requires speed and discipline, but it is very do-able. This is especially the case when the Offense is so one-dimensional. ie. no running game.

Watkins,

Is the bomb, and makes cougar football worth watching this year. I mean, the guy frieken runs a 4.26 40. I don't know if that is accutrak timed or fat coach timed, either way, that's the most exciting thing I've seen on the field for a while at Lavell's Stadium.
